Notice of variation and consolidation with introductory note

The Environmental Permitting (England & Wales) Regulations 2016

Jones Skip Hire (Wolverhampton) Limited

Jones Skips (Wolverhampton) Limited
Chillington Works
Hickman Avenue
Wolverhampton
WV1 2HS

Variation application number

EPR/CB3034RG/V007

Permit number

EPR/CB3034RG

Jones Skips (Wolverhampton) Limited
Permit number EPR/CB3034RG

Introductory note

This introductory note does not form a part of the notice

Under the Environmental Permitting (England & Wales) Regulations 2016 (schedule 5, part 1, paragraph 19) a variation may comprise a consolidated permit reflecting the variations and a notice specifying the variations included in that consolidated permit.

Schedule 1 of the notice specifies the conditions that have been varied and schedule 2 comprises a consolidated permit which reflects the variations being made. Only the variations specified in schedule 1 are subject to a right of appeal.

This variation notice adds five new EWC codes to waste table in schedule S2.1 and updates the registered office address

The schedules specify the changes made to the permit.

We consider that in reaching our decision to vary the permit we have taken into account all relevant considerations and legal requirements. We are satisfied that the permit will ensure that a high level of protection is provided for the environment and human health and that the activities will not give rise to any significant pollution of the environment or harm to human health.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	**Date**	**Comments**
Permit determined EPR/CB3034RG	12/01/2012	Original permit issued to Jones Skip Hire (Wolverhampton) Limited.
Variation determined EPR/CB3034RG/V002	03/04/2013	Permit varied to include hazardous waste code (17 06 05*) to the list of permitted wastes.
Variation determined EPR/CB3034RG/V003	01/04/2014	Permit varied to include hazardous waste code (17 06 01*) to the list of permitted wastes.
Variation determined EPR/CB3034RG/V004	28/07/2014	Permit varied to include non-hazardous waste codes 17 09 04 and 20 03 01.
EPR/CB3034RG/V005	12/12/2015	The company registered office address changed to: 23 Bilston Street, Dudley, West Midlands, DY3 1JA.
Variation determined and consolidation issued EPR/CB3034RG/V006	03/04/2023	Varied and consolidated permit issued in modern format. Increase in permitted annual throughput, two additional waste codes and increase in annual throughput for the treatment of non-hazardous waste.
Application EPR/CB3034RG/V007 (variation and consolidation)	Duly made 19/10/2024	Application to vary and update the permit to change registered office address and add an additional 5 EWC codes.
Variation determined EPR/CB3034RG	09/12/2024	Notice of variation issued

End of introductory note

Notice of variation and consolidation

The Environmental Permitting (England and Wales) Regulations 2016

The Environment Agency in exercise of its powers under regulation 20 of the Environmental Permitting (England and Wales) Regulations 2016 varies

Permit number

EPR/CB3034RG

Issued to

Jones Skip Hire (Wolverhampton) Limited ("the operator")

whose registered office is

Chillington Works
Hickman Avenue
Wolverhampton
WV1 2HS

company registration number 05627103

to operate a regulated facility at

Jones Skips (Wolverhampton) Limited
Chillington Works
Hickman Avenue
Wolverhampton
WV1 2HS

to the extent set out in the schedules.

The notice shall take effect from 05/12/2024

Name	Date
Jon Maycock	**09/12/2024**

Authorised on behalf of the Environment Agency

Schedule 1

The following conditions were varied as a result of the application made by the operator:

Schedule 2 Table S2.1 ‘Permitted waste types and quantities for A1 activity - Household, commercial and Industrial waste transfer station with treatment’, as referenced in condition 2.3.3, updated to include additional waste codes.

Schedule 2 – consolidated permit

Consolidated permit issued as a separate document.

Permit

The Environmental Permitting (England and Wales) Regulations 2016

Permit number

EPR/CB3034RG

This is the consolidated permit referred to in the variation and consolidation notice for application EPR/CB3034RG/V007 authorising,

Jones Skip Hire (Wolverhampton) Limited ("the operator"),

whose registered office is

Chillington Works
Hickman Avenue
Wolverhampton
WV1 2HS

company registration number 05627103

to operate waste operations at

Jones Skips (Wolverhampton) Limited
Chillington Works
Hickman Avenue
Wolverhampton
WV1 2HS

to the extent authorised by and subject to the conditions of this permit.

Name	Date
Jon Maycock	**09/12/2024**

Authorised on behalf of the Environment Agency

Conditions

1 Management

1.1 General management

1.1.1 The operator shall manage and operate the activities:

(a) in accordance with a written management system that identifies and minimises risks of pollution, including those arising from operations, maintenance, accidents, incidents, non-conformances, closure and those drawn to the attention of the operator as a result of complaints; and

(b) using sufficient competent persons and resources.

1.1.2 Records demonstrating compliance with condition 1.1.1 shall be maintained.

1.1.3 Any person having duties that are or may be affected by the matters set out in this permit shall have convenient access to a copy of it kept at or near the place where those duties are carried out.

1.1.4 The operator shall comply with the requirements of an approved competence scheme.

1.2 Avoidance, recovery and disposal of wastes produced by the activities

1.2.1 The operator shall take appropriate measures to ensure that:

(a) the waste hierarchy referred to in Article 4 of the Waste Framework Directive is applied to the generation of waste by the activities; and

(b) any waste generated by the activities is treated in accordance with the waste hierarchy referred to in Article 4 of the Waste Framework Directive; and

(c) where disposal is necessary, this is undertaken in a manner which minimises its impact on the environment.

1.2.2 The operator shall review and record at least every four years whether changes to those measures should be made and take any further appropriate measures identified by a review.

2 Operations

2.1 Permitted activities

2.1.1 The operator is only authorised to carry out the activities specified in schedule 1 table S1.1 (the "activities").

2.2 The site

2.2.1 The activities shall not extend beyond the site, being the land shown edged in green on the site plan at schedule 7 to this permit.

2.3 Operating techniques

2.3.1 The activities shall, subject to the conditions of this permit, be operated using the techniques and in the manner described in the documentation specified in schedule 1, table S1.2, unless otherwise agreed in writing by the Environment Agency.

2.3.2 If notified by the Environment Agency that the activities are giving rise to pollution, the operator shall submit to the Environment Agency for approval within the period specified, a revision of any plan or other documentation ("plan") specified in schedule 1, table S1.2 or otherwise required under this permit which identifies and minimises the risks of pollution relevant to that plan , and shall implement the approved revised plan in place of the original from the date of approval, unless otherwise agreed in writing by the Environment Agency.

2.3.3 Waste shall only be accepted if:

(a) it is of a type and quantity listed in schedule 2 tables S2.1 or S2.2; and

(b) it conforms to the description in the documentation supplied by the producer and holder.

2.4 Technical requirements

Hazardous waste storage and treatment

2.4.1 Hazardous waste shall not be mixed, either with a different category of hazardous waste or with other waste, substances or materials, unless it is authorised by schedule 1 table S1.1 and appropriate measures are taken.

3 Emissions and monitoring

3.1 Emissions of substances not controlled by emission limits

3.1.1 Emissions of substances not controlled by emission limits (excluding odour) shall not cause pollution. The operator shall not be taken to have breached this condition if appropriate measures, including, but not limited to, those specified in any approved emissions management plan, have been taken to prevent or where that is not practicable, to minimise, those emissions.

3.2 Odour

3.2.1 Emissions from the activities shall be free from odour at levels likely to cause pollution outside the site, as perceived by an authorised officer of the Environment Agency, unless the operator has used appropriate measures, including, but not limited to, those specified in any approved odour management plan, to prevent or where that is not practicable to minimise the odour.

3.3 Noise and vibration

3.3.1 Emissions from the activities shall be free from noise and vibration at levels likely to cause pollution outside the site, as perceived by an authorised officer of the Environment Agency, unless the operator has used appropriate measures, including, but not limited to, those specified in any approved noise and vibration management plan to prevent or where that is not practicable to minimise the noise and vibration.

3.3.2 The operator shall:

(a) if notified by the Environment Agency that the activities are giving rise to pollution outside the site due to noise and vibration, submit to the Environment Agency for approval within the period specified, a noise and vibration management plan which identifies and minimises the risks of pollution from noise and vibration;

(b) implement the approved noise and vibration management plan, from the date of approval, unless otherwise agreed in writing by the Environment Agency.

3.4 Pests

3.4.1 The activities shall not give rise to the presence of pests which are likely to cause pollution, hazard or annoyance outside the boundary of the site. The operator shall not be taken to have breached this condition if appropriate measures, including, but not limited to, those specified in any approved pests management plan, have been taken to prevent or where that is not practicable, to minimise the presence of pests on the site.

3.4.2 The operator shall:

(a) if notified by the Environment Agency, submit to the Environment Agency for approval within the period specified, a pests management plan which identifies and minimises risks of pollution, hazard or annoyance from pests;

(b) implement the pests management plan, from the date of approval, unless otherwise agreed in writing by the Environment Agency.

3.5 Fire prevention

3.5.1 The operator shall take all appropriate measures to prevent fires on site and minimise the risk of pollution from them including, but not limited to, those specified in any approved fire prevention plan.

4 Information

4.1 Records

4.1.1 All records required to be made by this permit shall:

(a) be legible;

(b) be made as soon as reasonably practicable;

(c) if amended, be amended in such a way that the original and any subsequent amendments remain legible, or are capable of retrieval; and

(d) be retained, unless otherwise agreed in writing by the Environment Agency, for at least 6 years from the date when the records were made, or in the case of the following records until permit surrender:

(i) off-site environmental effects; and

(ii) matters which affect the condition of the land and groundwater.

4.1.2 The operator shall keep on site all records, plans and the management system required to be maintained by this permit, unless otherwise agreed in writing by the Environment Agency.

4.2 Reporting

4.2.1 The operator shall send all reports and notifications required by the permit to the Environment Agency using the contact details supplied in writing by the Environment Agency.

4.2.2 Within one month of the end of each quarter, the operator shall submit to the Environment Agency using the form made available for the purpose, the information specified on the form relating to the site and the waste accepted and removed from it during the previous quarter.

4.3 Notifications

4.3.1 The Environment Agency shall be notified without delay following the detection of:

(a) any malfunction, breakdown or failure of equipment or techniques, accident, or emission of a substance not controlled by an emission limit which has caused, is causing or may cause significant pollution;

(b) the breach of a limit specified in the permit; or

(c) any significant adverse environmental effects.

4.3.2 Any information provided under condition 4.3.1 shall be confirmed by sending the information listed in schedule 5 to this permit within the time period specified in that schedule.

4.3.3 Where the Environment Agency has requested in writing that it shall be notified when the operator is to undertake monitoring and/or spot sampling, the operator shall inform the Environment Agency when the relevant monitoring and/or spot sampling is to take place. The operator shall provide this information to the Environment Agency at least 14 days before the date the monitoring is to be undertaken.

4.3.4 The Environment Agency shall be notified within 14 days of the occurrence of the following matters, except where such disclosure is prohibited by Stock Exchange rules:

Where the operator is a registered company:

(a) any change in the operator's trading name, registered name or registered office address; and

(b) any steps taken with a view to the operator going into administration, entering into a company voluntary arrangement or being wound up.

Where the operator is a corporate body other than a registered company:

(a) any change in the operator's name or address; and

(b) any steps taken with a view to the dissolution of the operator.

In any other case:

(a) the death of any of the named operators (where the operator consists of more than one named individual);

(b) any change in the operator's name(s) or address(es); and

(c) any steps taken with a view to the operator, or any one of them, going into bankruptcy, entering into a composition or arrangement with creditors, or, in the case of them being in a partnership, dissolving the partnership.

4.3.5 Where the operator proposes to make a change in the nature or functioning, or an extension of the activities, which may have consequences for the environment and the change is not otherwise the subject of an application for approval under the Regulations or this permit:

(a) the Environment Agency shall be notified at least 14 days before making the change; and

(b) the notification shall contain a description of the proposed change in operation.

4.4 Interpretation

4.4.1 In this permit the expressions listed in schedule 6 shall have the meaning given in that schedule.

4.4.2 In this permit references to reports and notifications mean written reports and notifications, except where reference is made to notification being made "without delay", in which case it may be provided by telephone.

Schedule 1 – Operations

Table S1.1 activities		
Activity reference	**Description of activities for waste operations**	**Limits of activities**
A1 - Household, commercial and Industrial waste transfer station with treatment	R3: Recycling/reclamation of organic substances which are not used as solvents (including composting and other biological transformation processes) R4: Recycling/reclamation of metals and metal compounds R5: Recycling/reclamation of other inorganic materials R13: Storage of waste pending any of the operations numbered R1 to R12 (excluding temporary storage, pending collection, on the site where the waste is produced) D9: Physico-chemical treatment not specified elsewhere which results in final compounds or mixtures which are discarded by means of any of the operations numbered D1 to D12 D14: Repackaging prior to submission to any of the operations numbered D1 to D13. D15: Storage pending any of the operations numbered D1 to D14 (excluding temporary storage, pending collection, on the site where the waste is produced)	Physical treatment including manual and mechanical sorting/separation, screening, baling, shredding, crushing or compaction of non-hazardous waste for disposal (no more than 50 tonnes per day) or recovery. No more than a total of 50 tonnes of intact and shredded waste vehicle tyres (waste code 19 12 04) shall be stored at the site. Storage of waste shall not exceed 1000 tonnes in total at any one time. No more than 50 tonnes per day of non-hazardous waste to be treated at the site under a D9 activity. Buildings, covered areas or containers shall meet the following requirements: • buildings, covered areas shall be designed, constructed and maintained to prevent ingress of rain and surface water; including impermeable surface with sealed drainage system. • rain and uncontaminated surface water shall be kept separate from contaminated water and other liquids. • containers containing waste shall be stored on an impermeable surface with sealed drainage system. Subject to any other requirements of this permit wastes shall be stored for no longer than 1 year prior to disposal or 3 years prior to recovery. Waste types as specified in Table S2.1.
A2 – Asbestos waste transfer station	D15: Storage pending any of the operations numbered D1 to D14 (excluding temporary storage, pending collection, on the site where the waste is produced)	There shall be no treatment or repackaging of asbestos waste. The maximum quantity of asbestos waste received at the site shall not exceed 10 tonnes per day and 20 tonnes in any one month. The maximum quantity of asbestos waste stored at the site shall not exceed 10 tonnes at any one time.

Table S1.1 activities		
		All waste received shall be bagged or where necessary wrapped. Asbestos waste shall be double bagged and stored within clearly identified, segregated, secure, lockable containers on an impermeable surface with sealed drainage system. Containers shall be locked when not being loaded. Buildings, covered areas or containers shall meet the following requirements: • buildings, covered areas shall be designed, constructed and maintained to prevent ingress of rain and surface water; including impermeable surface with sealed drainage system. • rain and uncontaminated surface water shall be kept separate from contaminated water and other liquids. • containers containing waste shall be stored on an impermeable surface with sealed drainage system. Hazardous wastes shall be stored for no longer than 6 months. Waste types as specified in Table S2.2.

Table S1.2 Operating techniques		
Description	**Parts**	**Date Received**
Additional information received in response to Schedule 5 notice dated 14/02/23	Approved Dust and Emission Management Plan, Version – Final Rev C, document dated 28/02/2023. Email dated 28/02/23 at 08:45 - Supporting information received in relation to Dust and Emission Management Plan.	28/02/23 and 06/03/23
Additional information received in response to Schedule 5 notice dated 14/02/23	Approved Odour Management Plan, Version – Final, Rev C, document dated 02/03/2023. Email dated 06/03/23 at 09:26 - Supporting information received in relation to Odour Management Plan.	06/03/23
Additional information received in response to Schedule 5 notice dated 17/02/23	Approved Fire Prevention Plan, Version – Final Rev C, document dated 02/03/23. Email dated 03/03/23 at 11:13 - Supporting information received in relation to Fire Prevention Plan.	03/03/23 and 06/03/23
Non-hazardous and inert waste: appropriate measures for permitted facilities Version published 12th July 2021	- General management appropriate measures – all relevant parts that apply to the site activity. - Waste pre-acceptance, acceptance and tracking – all relevant parts that apply to the site activity. - Waste storage – all relevant parts that apply to the site activity. - Waste treatment – all relevant parts that apply to the site activity. - Emissions control – all relevant parts that apply to the site activity. - Emissions monitoring and limits – all relevant parts that apply to the site activity. - Process efficiency appropriate measures are not applicable to waste operations. - Waste minimisation, recovery and disposal – all relevant parts that apply to the site activity.	N/A
Chemical waste: appropriate measures for permitted facilities Version published 18th November 2020	- General management appropriate measures – all relevant parts that apply to the site activity. - Waste pre-acceptance, acceptance and tracking – all relevant parts that apply to the site activity. - Waste storage, segregation and handling – all relevant parts that apply to the site activity. - Waste treatment – all relevant parts that apply to the site activity. - Emissions control – all relevant parts that apply to the site activity. - Emissions monitoring and limits – all relevant parts that apply to the site activity. - Process efficiency appropriate measures are not applicable to waste operations. - Waste minimisation, recovery and disposal – all relevant parts that apply to the site activity.	N/A

Schedule 2 – Waste types

Table S2.1 Permitted waste types and quantities for A1 activity - Household, commercial and Industrial waste transfer station with treatment.	
Maximum quantity	**The total quantity of waste accepted at the site for the above activity shall be no more than 248,800 tonnes a year.**
Exclusions	**Wastes having any of the following characteristics shall not be accepted:** • **Consisting solely or mainly of dusts, powders or loose fibres** • **Wastes that are in a form which is either sludge or liquid**
Waste code	**Description**
03	**Wastes from wood processing and the production of panels and furniture, pulp, paper and cardboard**
03 01	**wastes from wood processing and the production of panels and furniture**
03 01 01	waste bark and cork
03 01 05	sawdust, shavings, cuttings, wood, particle board and veneer other than those mentioned in 03 01 04
03 03	**wastes from pulp, paper and cardboard production and processing**
03 03 01	waste bark and wood
10	**WASTES FROM THERMAL PROCESSES**
10 12	**wastes from manufacture of ceramic goods, bricks, tiles and construction products**
10 12 01	waste preparation mixture before thermal processing
10 12 06	discarded moulds
10 12 08	waste ceramics, bricks, tiles and construction products (after thermal processing)
10 12 10	solid wastes from gas treatment other than those mentioned in 10 12 09
10 12 12	wastes from glazing other than those mentioned in 10 12 11
15	**Waste packaging, absorbents, wiping cloths, filter materials and protective clothing not otherwise specified**
15 01	**packaging (including separately collected municipal packaging waste)**
15 01 01	paper and cardboard packaging
15 01 02	plastic packaging
15 01 03	wooden packaging
15 01 04	metallic packaging
15 01 05	composite packaging
15 01 06	mixed packaging
15 01 07	glass packaging
15 01 09	textile packaging
17	**Construction and demolition wastes (including excavated soil from contaminated sites)**
17 01	**concrete, bricks, tiles and ceramics**
17 01 01	concrete
17 01 02	bricks
17 01 03	tiles and ceramics

Table S2.1 Permitted waste types and quantities for A1 activity - Household, commercial and Industrial waste transfer station with treatment.	
Maximum quantity	**The total quantity of waste accepted at the site for the above activity shall be no more than 248,800 tonnes a year.**
Exclusions	**Wastes having any of the following characteristics shall not be accepted:** • **Consisting solely or mainly of dusts, powders or loose fibres** • **Wastes that are in a form which is either sludge or liquid**
Waste code	**Description**
17 01 07	mixtures of concrete, bricks, tiles and ceramics other than those mentioned in 17 01 06
17 02	**wood, glass and plastic**
17 02 01	wood
17 02 02	clean glass only
17 02 03	plastic
17 03	**bituminous mixtures, coal tar and tarred products**
17 03 02	bituminous mixtures other than those mentioned in 17 03 01
17 04	**metals (including their alloys)**
17 04 01	copper, bronze, brass
17 04 02	aluminium
17 04 03	lead
17 04 04	zinc
17 04 05	iron and steel
17 04 06	tin
17 04 07	mixed metals
17 04 11	cables other than those mentioned in 17 04 10
17 05	**soil (including excavated soil from contaminated sites), stones and dredging spoil**
17 05 04	soil and stones other than those mentioned in 17 05 03
17 05 06	dredging spoil other than those mentioned in 17 05 05
17 05 08	track ballast other than those mentioned in 17 05 07
17 06	**insulation materials and asbestos-containing construction materials**
17 06 04	insulation materials other than those mentioned in 17 06 01 and 17 06 03
17 08	**gypsum-based construction material**
17 08 02	gypsum-based construction materials other than those mentioned in 17 08 01
17 09	**other construction and demolition wastes**
17 09 04	mixed construction and demolition wastes other than those mentioned in 17 09 01, 17 09 02 and 17 09 03
19	**Wastes from waste management facilities, off-site waste water treatment plants and the preparation of water intended for human consumption and water for industrial use**
19 12	**wastes from the mechanical treatment of waste (for example sorting, crushing, compacting, pelletising) not otherwise specified**
19 12 01	paper and cardboard
19 12 02	ferrous metal

Table S2.1 Permitted waste types and quantities for A1 activity - Household, commercial and Industrial waste transfer station with treatment.	
Maximum quantity	**The total quantity of waste accepted at the site for the above activity shall be no more than 248,800 tonnes a year.**
Exclusions	**Wastes having any of the following characteristics shall not be accepted:** • **Consisting solely or mainly of dusts, powders or loose fibres** • **Wastes that are in a form which is either sludge or liquid**
Waste code	**Description**
19 12 03	non-ferrous metal
19 12 04	plastic and rubber
19 12 05	glass
19 12 07	wood other than that mentioned in 19 12 06
19 12 08	textiles
19 12 09	minerals (for example sand, stones)
19 12 12	other wastes (including mixtures of materials) from mechanical treatment of wastes other than those mentioned in 19 12 11
20	**Municipal wastes (household waste and similar commercial, industrial and institutional wastes) including separately collected fractions**
20 01	**separately collected fractions (except 15 01)**
20 01 01	paper and cardboard
20 01 02	glass
20 01 10	clothes
20 01 11	textiles
20 01 38	wood other than that mentioned in 20 01 37
20 01 39	plastics
20 01 40	metals
20 02	**garden and park wastes (including cemetery waste)**
20 02 01	biodegradable waste
20 02 02	soil and stones
20 02 03	other non-biodegradable wastes
20 03	**other municipal wastes**
20 03 01	mixed municipal waste (excluding household waste)
20 03 07	bulky waste

Table S2.2 Permitted waste types and quantities for A2 activity – Asbestos waste transfer station.	
Maximum quantity	**The total quantity of waste accepted at the site for the above activity shall be no more than 1,200 tonnes a year.**
Exclusions	**Wastes having any of the following characteristics shall not be accepted:** - **Wastes that are in a liquid form**
Waste code	**Description**
17	**Construction and demolition wastes (including excavated soil from contaminated sites)**

Table S2.2 Permitted waste types and quantities for A2 activity – Asbestos waste transfer station.	
Maximum quantity	**The total quantity of waste accepted at the site for the above activity shall be no more than 1,200 tonnes a year.**
Exclusions	**Wastes having any of the following characteristics shall not be accepted:** - **Wastes that are in a liquid form**
Waste code	**Description**
17 06	**insulation materials and asbestos-containing construction materials**
17 06 01*	insulation materials containing asbestos
17 06 05*	construction materials containing asbestos

Schedule 3 – Emissions and monitoring

There are no emission limits or associated monitoring requirements.

Schedule 4 – Reporting

There is no reporting under this schedule.

Schedule 5 – Notification

These pages outline the information that the operator must provide.

Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet and accompanied by an application for commercial confidentiality under the provisions of the EP Regulations.

Part A

Permit Number	
Name of operator	
Location of Facility	
Time and date of the detection	

(a) Notification requirements for any malfunction, breakdown or failure of equipment or techniques, accident, or emission of a substance not controlled by an emission limit which has caused, is causing or may cause significant pollution	
To be notified within 24 hours of detection	
Date and time of the event	
Reference or description of the location of the event	
Description of where any release into the environment took place	
Substances(s) potentially released	
Best estimate of the quantity or rate of release of substances	
Measures taken, or intended to be taken, to stop any emission	
Description of the failure or accident.	

(b) Notification requirements for the breach of a limit	
To be notified within 24 hours of detection unless otherwise specified below	
Emission point reference/ source	
Parameter(s)	
Limit	
Measured value and uncertainty	
Date and time of monitoring	

(b) Notification requirements for the breach of a limit	
To be notified within 24 hours of detection unless otherwise specified below	
Measures taken, or intended to be taken, to stop the emission	

Time periods for notification following detection of a breach of a limit	
Parameter	**Notification period**

(c) Notification requirements for the detection of any significant adverse environmental effect	
To be notified within 24 hours of detection	
Description of where the effect on the environment was detected	
Substances(s) detected	
Concentrations of substances detected	
Date of monitoring/sampling	

Part B – to be submitted as soon as practicable

Any more accurate information on the matters for notification under Part A.	
Measures taken, or intended to be taken, to prevent a recurrence of the incident	
Measures taken, or intended to be taken, to rectify, limit or prevent any pollution of the environment which has been or may be caused by the emission	
The dates of any unauthorised emissions from the facility in the preceding 24 months.	

Name*	
Post	
Signature	
Date	

* authorised to sign on behalf of the operator

Schedule 6 – Interpretation

“accident” means an accident that may result in pollution.

“Annex I” means Annex I to the Waste Framework Directive.

“Annex II” means Annex II to the Waste Framework Directive.

“application” means the application for this permit, together with any additional information supplied by the operator as part of the application and any response to a notice served under Schedule 5 to the EP Regulations.

“authorised officer” means any person authorised by the Environment Agency under section 108(1) of The Environment Act 1995 to exercise, in accordance with the terms of any such authorisation, any power specified in section 108(4) of that Act.

“building” means a construction that has the objective of providing sheltering cover and minimising emissions of noise, particulate matter, odour and litter.

“D” means a disposal operation provided for in Annex I to the Waste Framework Directive.

“emissions of substances not controlled by emission limits” means emissions of substances to air, water or land from the activities, either from the emission points specified in schedule 3 or from other localised or diffuse sources, which are not controlled by an emission limit.

“EP Regulations” means The Environmental Permitting (England and Wales) Regulations SI 2016 No.1154 and words and expressions used in this permit which are also used in the Regulations have the same meanings as in those Regulations.

“groundwater” means all water, which is below the surface of the ground in the saturation zone and in direct contact with the ground or subsoil.

“Hazardous property” has the meaning in Annex lll of the Waste Framework Directive.

“Hazardous waste” has the meaning given in the Hazardous Waste (England and Wales) Regulations 2005.

“impermeable surface” means a surface or pavement constructed and maintained to a standard sufficient to prevent the transmission of liquids beyond the pavement surface.

“sealed drainage system” in relation to an impermeable surface, means a drainage system with impermeable components which does not leak and which will ensure that:

- no liquids will run off the surface otherwise than via the system
- all liquids entering the system are collected in a sealed sump, except where liquids may be lawfully discharged.

“List of Wastes” means the list of wastes established by Commission Decision 2000/532/EC replacing Decision 94/3/EC establishing a list of wastes pursuant to Article 1(a) of Council Directive 75/442/EEC on waste and Council Decision 94/904/EC establishing a list of hazardous waste pursuant to Article 1(4) of Council Directive 91/689/EEC on hazardous waste.

“pests” means birds, vermin and insects.

“quarter” means a calendar year quarter commencing on 1 January, 1 April, 1 July or 1 October.

“R” means a recovery operation provided for in Annex II to the Waste Framework Directive.

“Waste code” means the six digit code referable to a type of waste in accordance with the List of Wastes and in relation to hazardous waste, includes the asterisk.

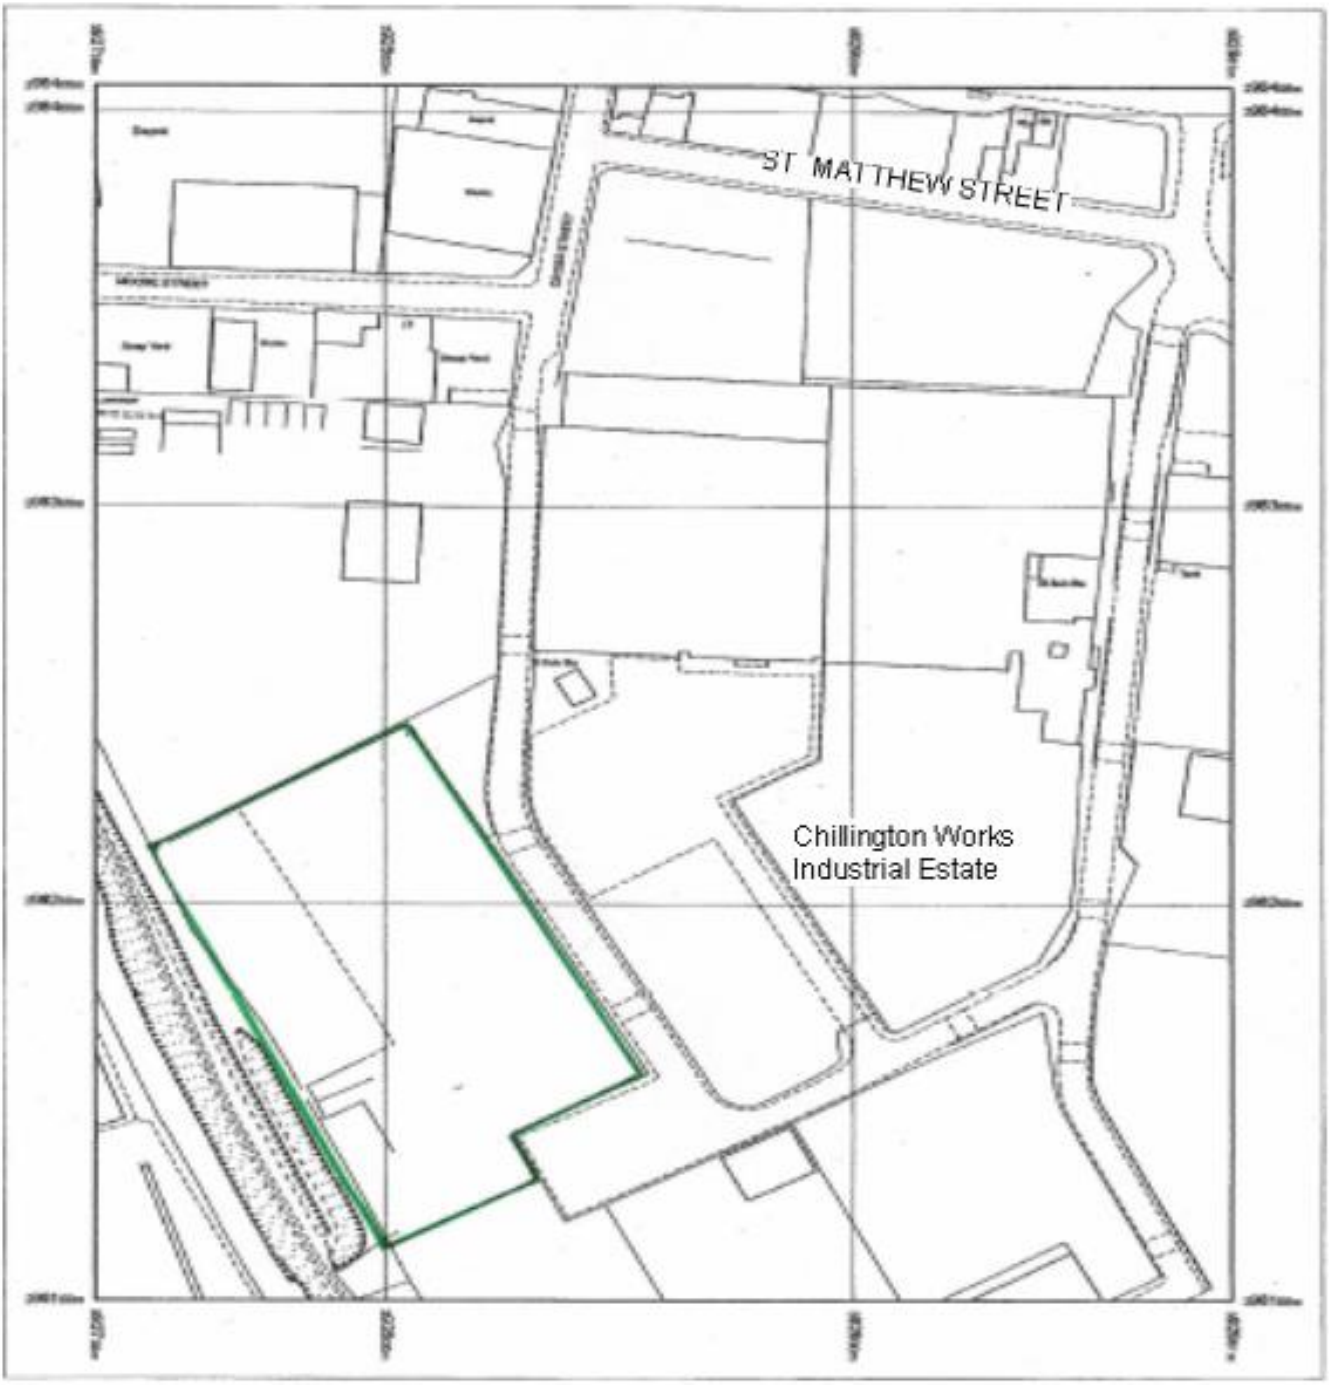

“Waste Framework Directive” or “WFD” means Waste Framework Directive 2008/98/EC of the European Parliament and of the Council on waste, as read in accordance with Schedule 1A to the Environmental Permitting (England and Wales) Regulations 2016.

“year” means calendar year ending 31 December.

When the following terms appear in the waste code list in Schedule 2, table S2.1 or S2.2, for hose tables they have the meaning given below:

“hazardous substance” means a substance classified as hazardous as a consequence of fulfilling the criteria laid down in parts 2 to 5 of Annex I to Regulation (EC) No 1272/2008.
